

Children fall through the cracks in Ward 3

<http://washingtonexaminer.com/2011/03/children-fall-through-cracks-ward-3/39299>

“Case in point: The city has repeatedly been warned about the worsening condition of a 7-year-old girl who suffers from severe chronic neutropenia, an extremely rare failure of the immune system that leaves her highly vulnerable to ordinary infections. But the little girl is not being treated for this life-threatening condition.”

“every professional who looks at the case asks why toxicology testing has not been done. In fact, toxicology testing has been requested on numerous occasions by Ariana-Leilani’s mother, but the father refuses to have her tested.”

Black German/American Child Likely to Die of Untreated Disease US Officials Do Nothing to Stop Human Experiment

German government intercedes for Ariana-Leilani who is a dual American-German citizen. The excerpt below is taken from Case 1:11-cv-01124-JSG Document 24 Filed 04/13/12 IN THE UNITED STATES DISTRICT COURT FOR THE DISTRICT OF COLUMBIA Civil Action No. 1:11-cv-001124-JSG to the Honorable Judge James S. Gwin:

80. Defendant DC has discriminated against [REDACTED] Mother, who is African-American, in favor of Plaintiff’s Child’s father, who is Caucasian,

3. To date, [REDACTED] has not received independent medical and psychological examinations, as requested by the German Government through the German Embassy for its’ child citizen, [REDACTED], to determine the underlying cause of [REDACTED] life threatening Severe Chronic Neutropenia.

4. To date, [REDACTED] has not received the recommended treatment of GCSF medicine that boosts the immunity of a person suffering from Severe Chronic Neutropenia, leaving her unnecessarily vulnerable to clandestine common infection, which can kill its victims within hours sometimes with little or no typical outward warning symptoms.

5. During the course of her four years of unnecessarily suffering with Severe Chronic Neutropenia, [REDACTED] has endured lesions, infections, gingivitis, periodontal disease, loss of teeth, wetting accident during the day and at night, delayed development, and Post Traumatic Stress Disorder, which all can be attributed to the diagnosed but untreated Severe Chronic Neutropenia and/or untreated Post Traumatic Stress Disorder (PTSD).

A petition demanding immediate medical treatment is currently being circulated. Please sign the petition <http://www.ariana-leilani.com> . After signing the petition, please consider a follow-up letter to President Obama asking for his intervention in this matter: The White House, 1600 Pennsylvania Avenue NW, Washington, DC 20500
